

## Overview of de minimis value regimes open to express shipments world wide

**Introduction:** De minimis refers to the minimum value of the goods below which no duties and taxes are being collected by the Customs (see also Transitional Standard 4.13 of the WCO Revised Kyoto Convention). Certain countries have a separate threshold below which simplified declarations are accepted, e.g. in form of the transport manifest or other suitable form.

**Disclaimer:** This list contains information that was collected from publicly available sources. It is not an official source of information on such regimes world wide. It may not be perfectly accurate or up to date. This overview is for reference only and colorFabb does not accept any liability for any inaccuracies contained therein or decisions made on the basis of the information listed here. Please help us improve this list by sending us additional information from authoritative sources to sales@colorfabb.com+ and we will update it as appropriate.
